---

### SUMMARY

With a solid background in backend development using .NET, I endeavor to provide strategic solutions that enhance scalability and add value. I excel in effective communication and team collaboration, always aiming to achieve common goals. My focus lies in teamwork, recognizing and valuing individual contributions to achieve outstanding results.

---

### SKILLS

- **Skills:** C#, .NET, SQL Server, GIT, Agile Methodologies.
  - **Languages:** English B1, Native Spanish
- 

### WORK EXPERIENCE

#### .NET Software Engineer - Webstarted

Sep 2023 - Present

As a backend developer at an ATS company, I played a crucial role in designing, developing, and maintaining specialized solutions for request management. Utilizing .NET, Entity Framework, Unit Testing, and SQL Server, I streamlined system workflows. Emphasizing agile methodologies, particularly through Azure DevOps, ensured efficient project management and goal attainment. Conducting code reviews via Pull Requests maintained code quality. My expertise includes integrating databases for efficient data management.

#### .NET Developer - Softtek / YPF

Sep 2022 - Sep 2023

I contributed to the development of web applications and services for oil projects at YPF, using .NET Framework, jQuery, HTML, CSS, and JavaScript. Collaborated within teams to meet client requirements and enhance operational efficiency. Played a role in the success of key projects in the oil sector.

---

### EDUCATION

#### Bachelor Degree of Data Science

Mar 2024 - Ongoing

Universidad del Gran Rosario

#### Associate Degree in Programming

Mar 2021 - Nov 2022

Universidad Tecnológica Nacional

- Javascript, HTML, CSS, React, C#, .NET, Python, Arduino, SCRUM, etc.
